THE SHORT LINE HAS A BAD WRECK

Engine and Cars Smashed and Track Torn Up.

LOSS AMOUNTS TO \$100,000.

Engineer, Fireman and Brakeman Jumped and saved their Lives -Traffic Delayed.

A loss of near \$100,000 was sustained by the Oregon Short line yesterday in a wreck which occurred near the Highland Boy smelters. Luckily the loss was confined to property, but that no lives were lost was simply a matter of luck, for all the elements of danger associated with a wreck were present.

Fireman Louis Rocker and Brakeman "Allie" Barker were somewhat bruised and scratched as a result of jumping, but the act probably saved their lives. The engineer also escaped in the same manner and came off without injury.

A gravel train of 40 cars was coming up from the point of the mountain and ran into ten cars standing on the main track. Five of these cars were smashed beyond redemption and three of them were so badly broken up that they will have to be almost made new in order to be useful again.

For a distance of thirty feet the track was entirely ripped up and for a considerable additional distance the rails were made to look almost like corkscrews. Cars were scattered right and left and the engine, No. 636, plunged into the slough at the side of the track.

When the engineer saw that he was going to strike the standing cars he reversed the engine and jumped. The momentum of the forty cars coming down the slight grade, however, was too great to be checked so suddenly, and the brakes on the train failing to work properly the engine slid upon the reversed drivers into the standing with such force as to cause the damage

Whether or not the engine can Be restored is a question to be decided after she is taken out of the slough, but from present appearances the machine will

be introduced to the scrap pile.

Traffic past the point of the wreck was stopped for several hours, and it was nearly 9 o'clock last night when the first train went through. It is estimated that the damage to rolling stock, engine and track will foot up \$100,000, and it is stated that for general destruction the wreck was the worst one the Short Line has had for years.

Master Mechanic Tollerton and Su-

perintendent Young went down to Sandy to straighten out matters, and had a wrecking crew hard at work for several hours on the tangled-up mass.

Secured An Outlet.

A New York dispatch today says: At outlet to Montreal has been se-cured by the Rutland Railroad company by the purchase of the United Counties Railway. W. Seward Webb, chairman of the Rutland's board of directors, said yesterday that the acquisition had been brought about through the efforts of H. A. Hodge, who is interested in the Rutland, Mr. Webb added that besides this the Rutland would build another outlet from Noyan Junction to some point on the

Canadian Pacific.

The United Counties Railway runs from Iberville to Sorel, Quebec province, a distance of sixty-six miles. Besides, it has running powers on the Montreal and Atlantic railway. The Rutland railway has been endeavoring to get an outlet to the St. Lawrence for some time in order to be able to reach tidewater. For this purpose it acquired the Ogdensburg and Lake Champlain and built the Rutland Canadian railroad to Rouses Point and Noyan Junction. With this opening to Mon treal secured the Rutland will probably be successful in its endeavor to make a traffic arrangement with the Fitch-burg road, which has heretofore re-fused to take business from the Rui-land in an effort to shut in that road.

Passes Still Go.

A special to the Chicago Times-Herald from Des Moines says: After an all day discussion the Hughes anti-free pass bill lacked one vote of passing in the house. Various attempts had been made to kill the bill with amendments and by the indirect means of laying it on the table. The judiciary commit-tee had reported the bill in an emaclated form, making it apply only to delegates to political conventions. A minority report, restoring the bill to its original form, prohibiting issuing passes to all state and county officers including members of the legislature and district judges, was adopted by a vote of 54 to 34.

The opponents of the bill next tried to amend it by making it apply to the railway commissioners, to whom railway companies are compelled by law to furnish free transportation. This failed by a vote of 38 to 51.

The morning votes indicated that the bill would pass, but during the noon re-cess several members changed their No motion to reconsider was

discussion was at times very animated.

business as proposed Edward Lauterbach, counsel for the company, said that when the dividend was declared a couple of weeks ago, it was the belief of the directors that all the money ceded for obligations of the road would be promptly forthcoming.

The subsequent failure of negotiations with two syndicates caused the directors to rescind the order.

RAILROAD NOTES.

Manager Shelby of the Seven Devils road is here on business.

General Traffic Manager Babcock of the Rio Grande Western returned from Denver this morning. H. W. Early, formerly with the Salt Lake & Ogden, is now in business at

Baker City, Oregon. The Sumpter Valley railroad is said to be contemplating the letting of con-tracts for a 160-mile extension beyond the present terminus at Sumpter, Ore.

Union Pacific agents, operators, conductors, brakemen, engineers, firemen, switchmen, and others, are notified that they must take a physical examination

Cars are running over the new rail-road bridge below Kamiah and bringing up rails for the completion of the track to the mouth of Cottonwood creek, says the Grangeville, Idaho, Free Press.

A special to the Chicago Record from Galesburg, Ills., today, says: Dr. J. L. Shepard, division medical director of the Chicago, Burlington and Quincy relief department, accepted an appoint-ment as surgeon in the regular army. He leaves for Manila on April first.

The Carson Appeal says that D. O. Mills and a party of Southern Pacific officials are expected to arrive in that city in a few days, from where they will proceed to the C. & C. R. R. on a tour of inspection. They will probably investigate the proposed cutoff from Wadsworth to Churchill.

TRAFFIC IS BLOCKADED.

Mississippi Valley Shrouded in Heavy Manue of Snow.

Two to Three Feet on the Level in Places - Railway Trains, Street Cars and Other Traffic Impeded.

Chicago, Feb. 28,-Traffic was blocked in parts of the city by the snowstorm which started last night. The weather bureau announced today that the snow fall was the greatest since the winter of 1898, averaging nearly seven inches in the middle western States. It was stated that the condition gave no promise of any abatement of the storm before tomorrow. The greatest snow fall, according to the weather map, is in Illinois, Missouri, Kansas, southern Michigan, northern Indiana, southeast-ern Iowa and southeastern Wisconsin. Raifroads running through these States report trains from half an hour to five hours late. All the roads sent out their plows during the night. In Chicago traffic was carried on with

the greatest difficulty—the streets being blocked by great drifts of snow. A mile of cable cars were tied up on the north side line for hours and in other portions of the city the snow blockade was so effective that many people were compelled to wade through the snow to their places of business.

Reports received from Tennessee, Mississippi and Louisiana indicate that the storm is general down the Mississippi valley, although the snow line does not extend far south of St. Louis. Heavy sleet storms are reported south of St. Louis and Centralia, Ill., with much damage to the telegraph and telephone wires, while severe wind and electrical storms are reported in northern Missis-sippi and as far south as Independence,

Washington, Feb. 28.—Snow has fallen to a depth of 8 to 15 inches in Illinois, northern Indiana and eastern Missouri, and special reports received at noon in-dicate that heavy snow and high winds will seriously interfere with traffic from northern Ohio and western Indiana and lower lake region and interior of New York tonight. In eastern Pennsylvania, New Jersey, Maryland and Virginia temperature conditions favor rain changing tonight to snow,

Kansas City, Feb. 27.—The whole southwest is a mantle of snow that lies rom two to three feet deep on the level. Trains are late in all directions, telegraph and telephone facilities are t interrupted and at some points in Kan-sas where the wind has piled the snow in high drifts outside business has been

HOME FROM MEXICO.

Mrs. Ellen Jakeman Talks of the Mormon Colonies There.

Mrs. Ellen Jakeman of Provo was in Salt Lake today for the first time since her return from Mexico in which country she has been traveling for the past five months. During her absence Mrs. Jakeman visited all of the "Mormon" cionies in Mexico and says that they are in an exceedingly prosperous condition and that the government has been very liberal with them in the mat-ter of land grants and other concesions. The climate, she says, is the best in the world. The "Mormon" settlements, which were for a time of necessity somewhat primitive in character, are everywhere being superseded by brick tructures of a substantial character. A somewhat anomalous condition as to securing fire wood exists in some sections, the people being compelled to go down in the ground for wood and climb the mountains for water. The wood consists of the roots of a brush known as mesquette. These are quite plentiful and at full growth are about

the size of a man's body.

Mrs. Jakeman says that in September last she saw corn 15 feet high with five and six large cars on a single stalk. All semi-tropical fruits grow there in abundance and wheat of good quality can also be raised. Waterr are "self-planting" and grow in luxuri-ant profusion. As to school advantages, Mrs. Jakeman says they are excellent-almost as good as in Utah,

VERNON BISHOPRIC.

Apostle Lyman Returns After Assisting in its Reorganization.

Apostle Francis M. Lyman returned to Sait Lake last evening after a visit to Vernon, Tooele county, where he assisted in the reorganization of the bishopric of that place. The reorganization was made necessary by the removal to this city of Elder John C. Sharp, who has presided over the place as Bishop for the past twenty-three For a couple of years prior to that he was president of the Vernon branch. Under his administration it quickly grew into a ward and as a ward

t has been frequently, says Apostle Lyman, cited as a model, In yielding up his frust Elder Sharp leaves the little ward in an exceedingly prosperous condition. It has is meet-ing house, amusement hall and other ecclesiastical necessities all unincumbered, not owing a single dollar or any ward obligation. Bishop Sharp's coun-selors were E. J. Pherson and Israel Bennion. Under the reorganization Israel Bennion was made Bishop and Emil Pherson and Charles Anderson counselors. Tonight a grand reception will be tendered the retiring and incoming officers. Elder Sharp and his wife will be present. The latter has been the treasurer of the local Rellef Society for many years, and was ever an active worker in it and will be much missed.
